

Energy Pyramid

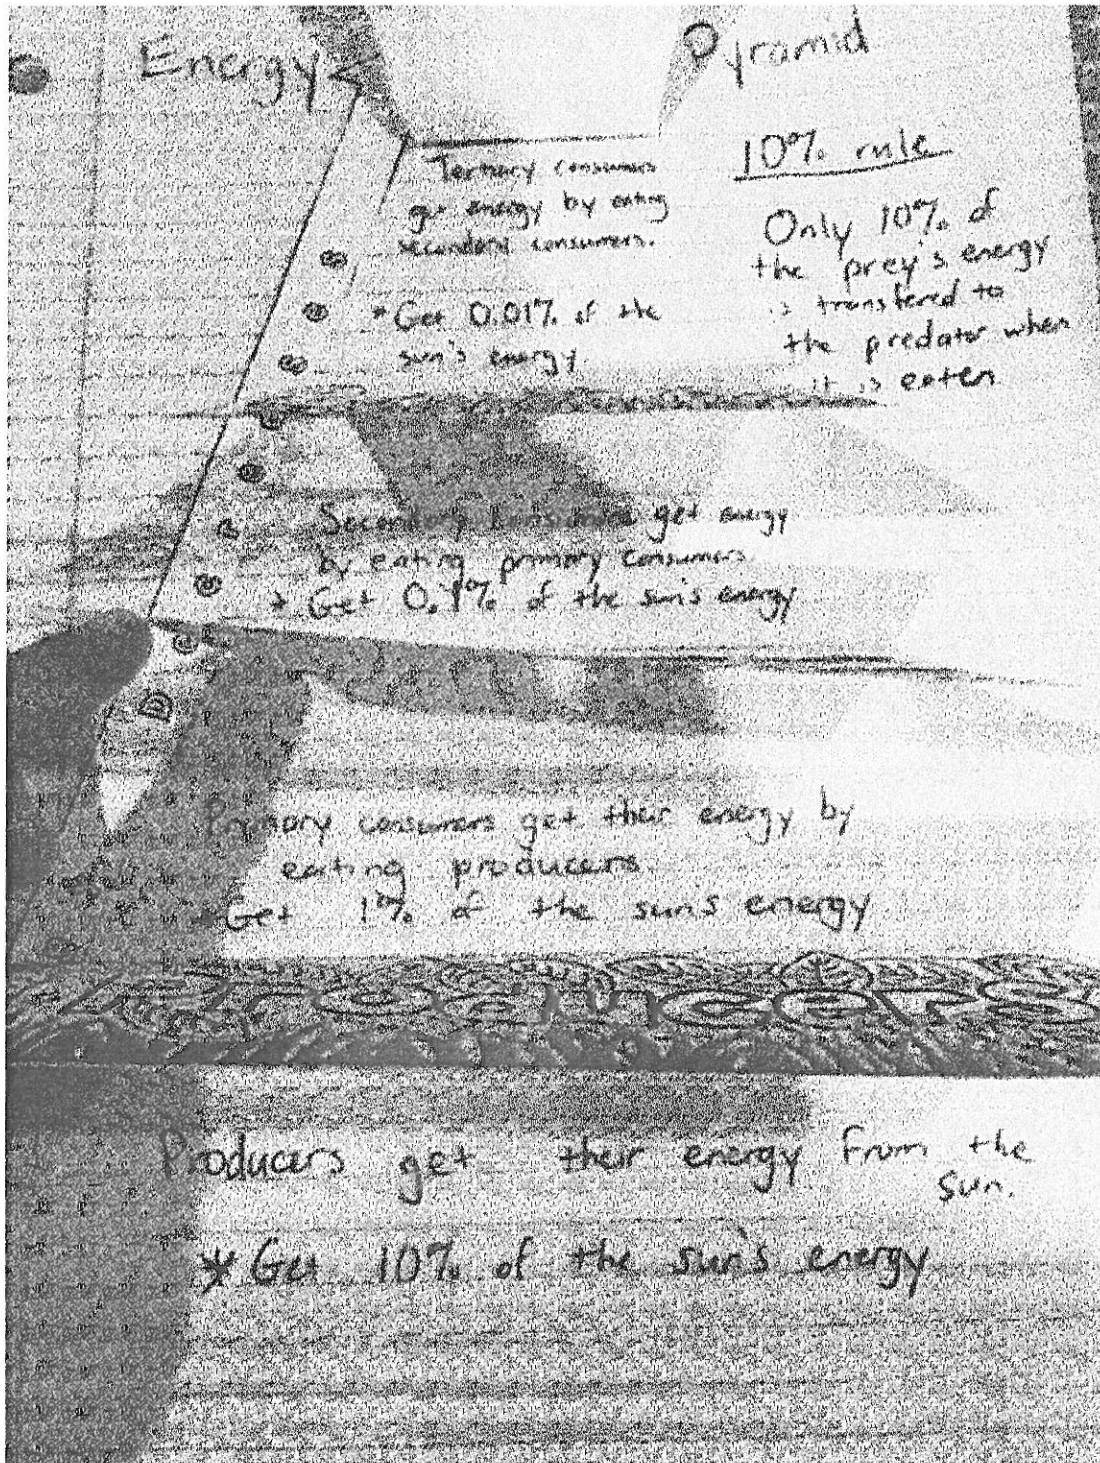

10% rule

Only 10% of the prey's energy is transferred to the predator when it is eaten

Next to the pyramid, write:

10% rule: Only 10% of the prey's energy is transferred to the predator when it is eaten

- Producers:** Producers get their energy from the sun. *Get 10% of the sun's energy
- Primary consumers:** Primary consumers get their energy by eating producers. *Get 1% of the sun's energy
- Secondary Consumers:** Secondary consumers get their energy by eating primary consumers. * Get 0.1% of the sun's energy.
- Tertiary consumers:** Tertiary consumers get their energy by eating secondary consumers. *Get 0.01% of the sun's energy.
